

Consider this: No recorded calls from ANYONE or polls!

The reason I want to do not call list is I don't want to be cold called by ANYONE. No entity should have a pass on bothering me at home. Bothering is bothering is bothering.

I am ALL for a National do not call list, BUT, that must be extended to ALL calls and not just for profit companies. I work for a brokerage firm in the midwest and do not have a problem giving up cold calling; however, I do have a problem with political figures and charities getting a pass on calling me.

Consider this: No recorded calls or polls
